MAN HURT WHEN HORSE BACKS OVER EMBANKMENT

Foreigner Picked Up As Dead, But Later Revives

WILL LIKELY RECOVER

Horse Not Greatly Injured But Wagon is Much Splintered Up

This morning a Slav huckster had a narrow escape from instant death at the Charleroi side of the Monessen-Charleroi bridge. The man is now in the Monessen-Charleroi hospital, but will evidently recover. His worst injury seems to be a fracture of the skull, and the physician in charge at the hospital does not think that this will prove fatal. The man rallied a short time before noon, and said that his name was Mike Wordel, or something of that nature.

The Slav, who was apparently under the influence of liquor, was driving along the street car tracks near the bridge, When he was within a few feet distant from the bridge approach, a street car happened along, and the horse becoming frightened backed over the embankment.

Wordel attempted to escape from what seemed a terrible death on the steet many feet below, but it was impossible and went over with the wagon and horse. He was picked up in an unconscious condition, and it was thought at first that he was dead. He was taken to the hospital, and all possible done by the physicians in charge there, with some success. The horse was injured somewhat by the fall but not killed, and the wagon was somewhat splintered.

There was nothing in the man's pockets to indicate his place of abode, or his name, and the hospital officials had to rely on what he could say in the short time that he was conscious for information. They could not correctly learn his residence, but it is about here somewhere.

THREE PRISONERS ADJUDGED INSANE

Removed From Western Penitentiary to Dixmont Hospital for Insane.

Three prisoners in this county who have been adjudged insane were removed from the Western penitentiary to the hospital for the insane at Dixmont yesterday by Deputy Sheriff W. B. McBride and Detective H. K. Sarver. The three were Samuel Robinson, Frank Smith and Henry Paul.

Robinson was serving a ten years' sentence for manslaughter, having shot and killed William C. Johnson, near Donora, in 1907. Smith was convicted of felonious breaking and entry and was serving a two years' sentence. Paul was serving an eight years' sentence for second degree murder, having been sent to the penitentiary in 1905. In a fight at Hazelkirk he killed David McCann.

Among the Charleroi people who yesterday attended the funeral of Mrs. Margaret Todd at Brownsville were Mr. and Mrs. W. H. Coles, Mr. and Mrs. G. L. West, J. C. and W. R. McKean, A. P. Stewart, John Jenkins, Burgess George Risbeck and Roland Brown.

School Closed On Account of Diphtheria

Disease Epidemic in Neighborhood of Cooper School

On account of an epidemic of diphtheria in the vicinity of the Cooper school in Fallowfield township, that school has been closed for two weeks. There has been no school there since Saturday, when the decision was made by the township directors. At the home of Paul Hagan there are two cases and one at the home of Elmer Fox.

MAY EFFECT COMPROMISE

Milkmen Willing to Meet On Equal Terms Councilmanic Committees

The Fallowfield Milkmen's Association will compromise matters with the Charleroi borough council, if they can, according to agreements reached at a meeting of the milkmen last evening. The terms upon which the milkmen will settle, however, were not made public, but they are considered reasonable by the dairymen as a whole. It is probable that a meeting will be held with the committee of council on next Monday, by the committee for the Milkmen's Association.

MONONGAHELA ROAD WILL BE EXTENDED

To Reach Rich and Undeveloped Coal Territory in Fayette and Greene.

It is practically assured that the Monongahela railroad, which now extends from Brownsville to Martin, in Fayette county, will be extended, in the direction of Wheeling, W. Va. The exact route seems to be in doubt as yet, but the whole southern end of Fayette county, as well as Greene county, is closely watching the trend of events.

During the past month a large corps of engineers has been stationed at Martin and New Geneva mapping out the country and running lines. It is said that the road will be extended to Point Marion and that another branch cross the river at New Geneva, and then penetra e the great coal lands of Greene county, and from there be carried to Wheeling. By these proposed routes, there would be a large amount of undeveloped coal territory reached, and the Monongahela Railroad would become a competitor of the B. and O., which in the southern part of Fayette has nearly everything its own way now.

ANNUAL HUNT WILL BE HELD

Elks Plan Affair For Monday And Tuesday, November Eighth and Ninth

Arrangements are being made for the annual Charleroi hunting contest of Charleroi Lodge No. 494, B. P. O. E., to be held on November 8 and 9. The hunt will last 48 hours or from Monday morning, November 8 at 12 o'clock, until Tuesday night, November 9 at 12 o'clock. As usual the affair will be followed in the course of a day or so after with a game supper, in which the losing side will appear as waiters, or in some other role, where there is work to be done for the benefit of the winning side.

The captains of the sides have been chosen. Thomas Barger is to lead the destinies of one and Councilman H. S. Piersol the other. A set of rules to govern the affair has been formulated, being practically the same as on previous occasions. A certain number of points is provided for each piece of game killed.

The names of hunters enrolling for the affair must be in before 10 o'clock p. m. on Saturday, November 6. However, it is requested that all who wish to participate in the hunt have their names in early.

BASEBALL PLAYER ATTEMPTS SUICIDE

Takes Chloroform, It is Said, When He Has Domestic Troubles

Henry Wilson, last season the popular first baseman of the Belle Vernon baseball club of the Valley league, is suffering from the effects of poison which he is said to have taken on Monday night in an attempt to commit suicide. He will recover, but had it not been for the timely arrival of a physician, it is stated he would have succumbed. Wilson, it is understood, had some domestic troubles, and on Monday night, in order to carry out a threat that he had previously made, took chloroform. Whether he took enough to have killed him, or not, is a question, but a physician was hastily called to the scene, took prompt measure to avert death, and succeeded in pumping the most of the poison from the man's stomach. Wilson lives in Fayette City, and it was at his home that he made the attempt at suicide. He had been to a drug store and had secured different kinds of poison shortly before taking the chloroform.

EXPLOSION VICTIM DIES FROM BURNS

Oliver Summerville Succumbs to Injuries Received at Centerville

George Summerville, 65 years old of Centerville, died yesterday at his home from the effects of injuries received in the gas explosion of the pumping plant of the Greensboro Gas company at Centerville on last Tuesday night. Funeral services will be held on Thursday morning at 9 o'clock at the late home, and later services will be held at Monongahela where the interment will be made. The deceased is survied by one daughter, Mrs. C. L Kenney, whose husband was also badly injured in the explosion, and one son, Walter Smmerville. Mr. Summerville was well known in this county.

A pleasant surprise party was held in honor of Mr. and Mrs. Allen Gracey at their home on Fallowfield avenue Monday evening. There was about 40 present. The evening was spent in games and music. At a late hour lunch was served.

Miss Roberta Trew spent Saturday in Pittsburg and Sunday in Donora. Miss Helen Baker accompanied her.

Two houses are in course of construction on Crest avenue.

A MISTAKE; NO PHANTOMS

Registration in Charleroi Shows There Are Over 1,500 Qualified Voters

The registration of voters in this county, which has just been finished shows there are 29,033 persons qualified to vote in the county at the November election. Charleroi has 1,505 legally qualified voters, this being in number next to Washington, which has 4,003 voters enrolled. Monongahela, the only place in the county which is subject to the provisions of the personal registation law, returns 817.

The registration last year was very heavy, the total number in round numbers being 30,000. It being a presidential year a special effort was made by party workers to have voters qualify. The falling off in the registration this year is due to general apathy, there being less interest manifested by voters.

Head officials of the main line, Pennsylvania railroad, were out on the Monongahela division today on an inspection tour. The special train went through here at 9:12 o'clock.

MERCHANTS GOING TO DONORA TONIGHT

Will Visit Neighbor Town to See Sights at Big Plants

This evening the members of the Charleroi Merchants Association and their friends will visit the big blast furnace and steel mill at Donora, where preparations have been made for their reception. The company wil leave on the 8:18 train and return on the "bummer."

President J. H. Bowers of the Merchants Association will have transportation for all who have signed the list and contributed for the trip. All are requested to meet at the station in time for the train and indications point to a most enjoyable as well as instructive outing.

WILL HOLD UP IMPROVEMENTS

Property Holders Will Not Sign Release of Damages

Through the fact that releases of damages will have to be signed by property holders along the Monongahela-Donora road, which is to be bricked by the county, it is feared that the improvements will be held up for some time to come. At present it is understood that there is being no efforts made to secure the releases of damages, and there is some question as to whether all property holders along the road will sign a release. It is said that the coal companies having holdings will agree to wave all clams of damages but the smaller property owners will not grant waivers.

ARRANGING FOR A BENEFIT DANCE

Moose of Valley will Hold Affair for the Hospital.

Arrangements are being made for a big euchre and dance to be held in the near future, probably some place in Monessen, for the benefit of the Monessen-Charleroi hospital. The affair is being planned by the Loyal Order of Moose of the valley, and several lodges are interested, among them, being Charleroi, Monessen, Donora, Monongahela and Belle Vernon. If plans carry out as they are being arranged, the combined affair will be a big social event and a good sum will be realized for the hospital work.

William Riggs Assumes Charge—Peterson Goes Elsewhere

William Riggs took charge of Mongah mine near Monongahela as superintendent yesterday succeeding George W. Peterson, who is still in charge at Bunola. Mr. Riggs was formerly located at Dravosburg, having had charge of the Camden mine. Last week he moved to Monongahela, having been placed in charge of the Coal Bluff mine. This morning the Mongah mine was added to his list.

ASK FOR AN APPEAL

Counsel For Lenhart Arranging to Take Case to Highest Tribunal

W. L. Lenhart, convicted of conspiracy in connection with the wrecking of the Peoples Bank of California, expects to make a further fight to keep out of the penitentiary.

Yesterday in Pittsburg Attorney J. L. Freeman, one of the counsel for Lenhart, presented a petition to the Supreme Court to take an appeal from the decision of the Superior Court. It is not likely that any decision will be handed down on the petition before the first of next week. Attorney R. W. Irwin, the Washington counsel, prepared the petition asking to be allowed to appeal and Monday was at Pittsburg in consultation with Attorney Freeman and their client, W. L. Lenhart.

If the Supreme Court allows the appeal to be taken, the counsel for Lenhart will at once take the necessary steps to get the case before the Supreme Court. Should they do so it means that Mr. Lenhart will be assured of liberty for at least several more months. His counsel have not given up hope that finally a reversal of the lower court's judgement will be secured.

Following his consultation with his counsel yesterday in Pittsburg Mr. Lenhart left at once for New York City, where he is employed at present.

A week ago Monday the Superior Court, to which an appeal had been taken from the lower court, handed down an opinion affirming the judgment of the lower court and directing the defendant to appear and be committed to serve out his sentence as imposed by the lower court. Lenhart was sentenced to pay the costs, and fine of $500 and undergo imprisonment in the penitentiary for two years.

GAS LOW IN BROWNSVILLE

People There Pay a Flat Rate of 15 Cents, This Being From Recent Increase

While the rising tide of wrath in Charleroi over the arbitrary raise in the price of gas by the Greensboro Gas company has not reached a climax, this same wrath is being carefully nursed to keep it warm. This far action has been confined to investigation in order to learn what the company is doing elsewhere, how and under what terms it was granted its franchise in Charleroi, and how it has kept faith with the people in exchange for the valuable franchise it was given free of charge.

One of the results of this investigation thus far is that the Greensboro Gas company is guilty of gross discrimination wherever it has competition, and that where it has a monopoly it has hoisted the black flag. At Brownsville, where another company also has a franchise, the Greensboro company is supplying gas to domestic consumers for 15 cents net a thousand feet. When that is compared to the net rate of 25 cents a thousand feet charged consumers in Charleroi, the injustice of the last raise is all the more apparent, as it costs no more to supply gas in Charleroi than in Brownsville.

The rate in Brownsville, according to reliable information, is 20 cents a thousand feet cubic feet with 25 per cent. discount if paid by the 10th of each month, making a net rate of 15 a thousand to Brownsville consumers. In Charleroi the rate is now 27 cents a thousand cubic feet, with a discount of two cents a thousand if paid by the 10th of each month, making the net rate 25 cents a thousand. Before the raise the rate here was 25 cents a thousand with a discount of 10 per cent, making the net price 22 1-2 cents.

A number of citizens have expressed their willingness to join forces in order to see whether or not the company cannot be restrained from maintaining this rate, which is believed to be discriminating and extortionate. With gas at 10 cents in Monongahela and 15 cents in Brownsville, the people here are slightly under the impression that they are being held up.

SHEATZ WANTS TO KNOW OF THE MONEY

Sabbath Breaking not Irregular, According to His Opinion.

State Treasurer Sheatz yesterday sent a letter to the county treasurers throughout the State asking them to request the justices of the peace and alderman in their respective counties to turn in all fines for violation of the Sunday laws.

"The fines received by the department for Sabbath breaking seem to come from but a few counties of the Commonwealth" says the State Treasurer in his letter, "and it would be unfair for me to believe that Sabbath breaking is confined to but a few counties."

The Amendments.

All voters should remember that they will be called upon to pass approval or disapproval upon ten proposed amendments to the State Constitution at the election November 2. The object of these amendments is to abolish the February election and to provide that the general election shall be held in November of even numbered years, and that the municipal election shall be held in November of odd numbered years. Elsewhere in this issue is an abstract of the proposed ten amendments, together with instructions how to vote for or against them.

While each of the amendments revises a different section of the Constitution, all are to the same end, and with one exception necesasry to retain the harmony of the Constitutional provisions. The exception is the seventh amendment, which provides that election boards may be elected biennially, instead of annually, and that the Legislature may pass a law to require election boards to be appointed instead of elected. As this takes the control of elections in a measure out of the hands of the people, it is meeting with much opposition. Just why this proposition was made is not clear. Its defeat, however, will not invalidate the operation of the other amendments, and the probability is that it will be defeated. The other amendments are decidedly of public benefit as they reduce the number of elections and public expenses, and should by all means carry. With the exception of the seventh amendment, voters should mark a cross after the "yes" in all the others.

Public Obstruction.

Because some of the property holders along the public road between Monongahela and Donora refuse to sign releases for damges, the brick road that the county intended to build there will not be constructed. The contract was awarded, and work would probably have commenced ere this, but with damage suits in project against the county on account of grades the work will be held in abeyance.

Because of this lack of public spirit an important public improvement is held up. The county officials are not going to invite suits and expense, and consequently the road will not be improved until the property owners along it see their way clear to sign releases. It would seem that any individual would gladly forego any slight inconvenience imposed by reason of grade for the greater benefits the brick road would confer. Property is surely more valuable on a boulevard than on an impassible mud road, to say nothing of the public convenience to that section. This obstructive policy on the part of a few property holders is decidedly shortsighted, to say the least.

Should Protest.

The sentiment of protest over the advance in the price of gas that has been aroused should not be permitted to lapse. It is more than likely that some means of redress can be found, and organized and systematic effort toward that end should be instituted. The people here should not hold up their hands and be robbed without a protest.

With every evidence at hand to show that a company holding a franchise of a public utility is guilty of gross discrimination and extortion, there should be some legal method of redress, in the face of all the late court decisions and legislation in the restraint of trust, and monopolies. If there are technicalities in the statutes which protect these monopolies and give them a free hand in their footpad methods, it is worth some trouble and expense to find them out in order that they may be corrected. Washington county has three Assemblymen and in all probability will have a State Senator, and with this force to start with we ought to be able to do something in the way of protecting the people from the clutches of the monopolies. By all means take concerted action.

SEVEN JAILED AS RESULT OF MURDER

Newton Phillips, colored, Mr. and Mrs. Mike Hermann, Hungarians, Mike Teedra, and three other Hungarians are under arrest awaiting the result of the coroner inquest this afternoon into the death of Calvin House, who was killed near his home in Rices Landing sometime between 11 o'clock Monday night and 4 o'clock Tueday morning. The man's body was found by the first named of those under arrest.

Evidence went to show that House had been brutally beaten; his head was terribly crushed and his body showed the effects of blows of some blunt instrument. The pockets of the clothing were turned inside out, making it seem as though robbery was the motive. The coroner's jury is taking testimony in the case this afternoon, and may hold some of those at present under arrest.

MOULIN ROGUE GIRLS HERE FOR TWO NIGHTS

Fresh, bright and breezy, a sweet vision of beauty, such are the reports of the press wherever the "Moulin Rouge Girls Big Burlesque" has appeared. The company numbers 25 people in which pretty girls predominate with a few famous funny fellows to keep the pot a boiling. When the company appears at the Coyle Theatre for two nights, Friday and Saturday, October 22 and 23, everything will be as bright and new as money can make it, beautiful costumes, spicy, enticing dances, the latest and best of the season's song hits, two new up-to-date burlettas, the first entitled "The Moulin Rouge Girls Ball" is one big riot of fun and hilarity.

The closer is called "Paris After Dark" in which one of the biggest sensations of the season is introduced called "Shadows." This is the star feature of the show and must be seen to be appreciated. This is but one of the many novelties that will be shown along with a number of high class vaudeville acts.

They Didn't Have to Change.

During the years in which our pure food laws have been put into effect there has been a great hurrying and scurrying on the part of the food manufacturers to change their methods to make them conform to the law.

The Quaker Oats Company is a conspicuous exception. It was admitted that Quaker Oats was as pure and clean as possible and that it was an ideal food.

It is so cheap that any one can afford it and so nourishing that everyone needs it. The result of last year's experiments at Yale and other points where food values were tested is that Quaker Oats has been adopted by many persons as their food on which they rely for adding vigor and endurance of muscle and brain.

The Quaker Oats Company meets all demands in the way it packs Quaker Oats; regular size packages and the large size family package; the latter, both with and without china. 18

FRIENDS FIGHT; THEN GO TO LAW

Now are Willing to Settle Quarrels and Again be Friends, So 'tis Said.

It is said that Emil Goussy and George Miller, both of this place, until Saturday night the best of friends, are now after a period of four days' break in friendship, willing to again shake hands and make up. The trouble occurred, it is said, while they were endeavoring to be social. It was at Goussy's house, and Miller charged that he was ordered from the place in such terms as to cause him to bring a charge of assault. Goussy claims that Miller did not act properly and therefore brought a charge against him of disorderly conduct. A hearing was held at Justice of the Peace Wilson's last night, and continued until later. Today it was said that the affair would be settled.

The defeat of Grove City by the California Normal team at California aroused the student body as few games in the past have done. Coach Harmon of Grove City was a successful coach at California for years and the defeat of a team brought back by him was the ambition of Coach Witcraft and his men. It was a bitterly contested game, and the best team won, though lighter by probably 15 pounds to the man. A feature of the day was the overflow of alumni of the Normal from all the river towns, from Uniontown and, in fact, all over the district, to see the game. Waynesburg will be met at Waynesburg tomorrow.

Charles R. Trew, one of Charleroi's real estate and insurance men, was transacting business in Uniontown Tuesday.

Samuel Simon and brother, Martin of Scenery Hill, were callers in Charleroi Wednesday.

WOODBURY writes about His Famous HAIR TONIC

Extract from an article written by the Master Dermatologist when Woodbury's combination Hair and Scalp Treatment was first successfully prepared for Home Use.

"The formula under which this Hair Tonic is made was tested and improved for over thirty-five years before a bottle was sold through the stores."

"For over thirty-five years this Tonic has been used in the enormous practice of John H. Woodbury's Dermatological Institute."

"Millions of cases were treated, and after their cure the patients continued the use of this Tonic as a delightful refreshment to the scalp and to keep the hair soft, rich and glossy."

If you don't see Woodbury's face on the label it's an imitation.

"This necessarily meant repeated calls at the Woodbury Institute, often at the inconvenience of patients living at a distance."

"To supply this demand, and the growing call from those who had not been treated, for a Hair Tonic which was scientifically successful (not a mere commercial product) this Tonic has now been put on the market and can hereafter be had from all reputable dealers."

Now, right in your own home, you can use the preparations formerly supplied only to office patients of the Institute. No other preparations for the Hair and Scalp are backed up by the same unlimited experience. No others give such quick and such satisfactory results.

Woodbury's Hair Tonic saves the hair when all other preparations fail. It prevents dandruff; stops falling hair, and instantly relieves itching scalp. It restores the lustre to the hair; preserves it's natural color; increases its vitality and makes it beautiful and abundant.

Everyone Endorses Woodbury's

Hair Now Growing Nicely.

My hair stopped falling out just as soon as I used the Woodbury's Scalp Cream in conjunction with the Scalp Cleaner. It's action was just like magic. The thick greasy dandruff is all gone. My hair is growing nicely and taking on a new growth. Your Hair Tonic I use night and morning, and it is the nicest hair dressing I have ever used. Thanking you for the letters of advice, I remain,

Sincerely yours,
Mrs. JOHN F. HOWSON,
498 Quincy Street, Brooklyn.

This Specialist Uses Woodbury's

After ten years of careful study, and close observation of all conditions of the hair and scalp, I find the Woodbury method of treatment most successful of all. It is based on the most correct scientific principles. In cases of scalp disease the Woodbury preparations go right to the root of the trouble, and their curative and stimulating properties are remarkable. Am now using them exclusively in my offices and the results obtained are most satisfactory.

JAMES B. QUINN,
Hair and Scalp Specialist,
Mosqlish Building, New York City

Quick Results Pleased Him.

The dandruff and itching scalp were terrible and my hair was thinning out over the temples and at the back of my head at an alarming rate. Nothing seemed to help until I used the Woodbury remedies, but good results were then noticed from the start, and in a few days the dandruff was entirely gone and new hairs began to show. What pleased me most was that results were so quick. The Woodbury Hair and Scalp Remedies certainly make the hair grow.

Yours very truly,

NAPOLEON'S FAREWELL.

The Most Dramatic Scene in the History of Fontainebleau.

It was at Fontainebleau that Napoleon received the pope in 1804. It was at Fontainebleau that he imprisoned the pope—the apartment which served as his prison is still shown—in 1812 and 1813. Finally, for Nemesis would have it so, it was at Fontainebleau that Napoleon signed his abdication and said farewell to his army in 1814, coming down the horseshoe staircase at the head of Cour du Cheval Blanc and placing himself at the head of the guard as if for a review.

"For twenty years," he said, "I have been well content with you and you have always been with me on the path of glory. With your help and that of all the brave men who are still loyal I could have carried on the war for three years longer, but France would have suffered, and I did not wish that to happen.

"I might have died, that would have been easy—but I would not. I prefer to follow the path of honor and to write the history of our exploits.

"I cannot embrace you all, but I will embrace your general. Come, General Petit. Bring me the eagle! Dear eagle! May these kisses find their echo in every brave man's heart!

"Farewell, my children!"

That surely is the most pathetic as it is also the most dramatic scene in the whole history of Fontainebleau.—T. P.'s London Weekly.

OLD TIME ENGLISH.

Words as They Were Pronounced In Shakespeare's Day.

The innovation of pronouncing Shakespeare's words as they were probably pronounced in his own day was carried out at a fete arranged at University college, London. The experiment inspired this comment by the Manchester Guardian:

For "one touch of nature" Shakespeare probably said "own tooch of natter," and, very much like a modern Irishman, he would say, "A haste that wants discoorse of rayson." It would be "Loov's Labbet's Lost" and the "Midsoommer Neecht's Drame." Scraps of "Hamlet" would sound thus:

"A haste that wants discoorse of rayson
Would haave moorned longer."
"Be they as pure [French u] as grass [grace]."
"A broken vooice and his whole fooonction shooting [suiting]
With forms to his consayt."
"To take arms against a say of troobles."

Our ancestors of even some 150 years ago said "Room" for Rome, "cheer" for chair, "obleeged" for obliged, "greet boul" (the "ou" as in "out") for "great bowl," and, further back, Milton would say "biling water."

VOTING ON AMENDMENTS MADE EASY

Much has been heard the past year or two about the proposed amendments to the Constitution of Pennsylvania, upon which the people will cast their vote one week from next Tuesday, or November 2. An editorial in this issue sets forth the general object of these proposed amendments in a short statement, but for the information and convenience of the voter a condensed digest of each one of the proposed amendedments is given below:

Proposed Amendments.

No 1.—Provides that where a vacancy in office occurs two months or more before the general election in November in offices in which vacancies may be filled by appointment of the Governor the vacancy shall be filled at the election. The provision now in force is that the vacancy shall have occurred three months or more before the election.

No. 2—Fixes the term of the State Treasurer and of the Auditor General at four years each instead of three and two years respectively, as at present; but provides that the State Treasurer and the Auditor General elected in 1909 shall serve terms of three years

No. 3—Provides that the term of office of justice of the peace and of alderman shall be six years, instead of five years as at present.

No 4—Applies only to Philadephia, and fixes the term of office of magistrates at six years. At present the term is five years.

No. 5.—Provides that the general election shall be held biennially, in each even numbered year, on the Tuesday next following the first Monday of November, instead of annually as at present.

No. 6—Abolishes the February election, and provides that the municipal election shall be held biennially in the odd numbered years, on the Tuesday following the first Monday of November, instead of annually as at present.

No. 7—Provides that election boards shall be elected biennially instead of annually, and further that the General Assembly may by law require said boards to be appointed, either generally or in cities only, instead of being elected.

No. 8.—Provides that State officers shall be elected on a general election day (November of even numbered years,) and the local officers shall be elected on a municipal election day (November of odd-numbered years.)

No. 9.—Fixes the term of office of all county officers as four years, instead of three years, as at present.

No. 10.—Provides that the terms of office of county commissioners and of county auditors shall be four years, instead of three years, as at present, classifying them as county officers coming under the ninth amendment.

How to Vote on Them.

Each amendment stands by itself; each embodies a distinct proposition, and each must be voted upon separately.

If you are in favor of abolishing spring elections, mark a cross opposite the word "yes" at the end of each amendment and the schedule

If you are opposed to the proposition, mark a cross opposite the word "no" wherever it occurs.

Voting a straight party ticket does not vote for or against the amendments.

Voting a split ticket does not vote for or against the amendments.

Voting on the amendments does not vote for the candidates.

THE CRUSH OF WORLDS.

What Would Happen if a Dead Sun Invaded Our Solar System.

It is possible, though it is not proved, that stars may sometimes approach one another and even "leap madly from their spheres." "What would happen were an unknown star or a dead sun to invade our solar system?" asks a writer in the London Illustrated News, who answers his query in two ways. In the first place, the star might rush straight into the sun and by the heat of the collision reduce the sun and all its planets to a nebulous mass without form or structure. But it is more mathematically probable that just as comets approach, circle and recede from the sun, so the starry invader of our system would approach our system and recede from it, having altered it beyond recognition.

But what would be its effect upon our sun? The sun as we know it today is explosively elastic. Great tongues of flame which would consume a little planet like ours at a mouthful continually leap from it with speeds of several hundred miles a second. This enormous explosive force is restrained only by the greater force of the sun's gravity. But if an approaching star as great as the sun came within striking distance of it then along the line joining the two bodies, each would begin to pull the other, as today the moon pulls up the earth's oceans.

The mighty pull of the invading star would neutralize the sun's gravity in one direction, and the sun would, in a sense, explode. Out from our ancestral sun and from opposite sides of it would fly two great lengthening arms of matter, reaching far beyond the farthest planet. As the star passed, its moving mass would give a further twist to the sun and would pull the arms of matter into the shape of a great double spiral. Form and motion would thus be imparted to the nebula thus created, and from the solar system thus extinguished in catastrophe a new sun, with planets condensing from the lumps and inequalities in the projecting arms, would arise.

A Bright Boy.

THE CHARLEROI MAIL

Entered second class mail at Charleroi, June 15, 1900, according to Act of Congress of March 3, 1879

VOL. X. NO. 54. CHARLEROI, WASHINGTON CO., PA., WEDNESDAY, OCTOBER 20, 1909. One Cent

MAN HURT WHEN HORSE BACKS OVER EMBANKMENT

Foreigner Picked Up As Dead, But Later Revives

WILL LIKELY RECOVER

Horse Not Greatly Injured But Wagon is Much Splintered Up

This morning a Slav huckster had a narrow escape from instant death at the Charleroi side of the Monessen-Charleroi bridge. The man is now in the Monessen-Charleroi hospital, but will evidently recover. His worst injury seems to be a fracture of the skull, and the physician in charge at the hospital does not think that this will prove fatal. The man rallied a short time before noon, and said that his name was Mike Wordel, or something of that nature.

The Slav, who was apparently under the influence of liquor, was driving along the street car tracks near the bridge, When he was within a few feet distant from the bridge approach, a street car happened along, and the horse becoming frightened backed over the embankment.

Wordel attempted to escape from what seemed a terrible death on the steet many feet below, but it was impossible and went over with the wagon and horse. He was picked up in an unconscious condition, and it was thought at first that he was dead. He was taken to the hospital, and all possible done by the physicians in charge there, with some success. The horse was injured somewhat by the fall but not killed, and the wagon was somewhat splintered.

There was nothing in the man's pockets to indicate his place of abode, or his name, and the hospital officials had to rely on what he could say in the short time that he was conscious for information. They could not correctly learn his residence, but it is about here somewhere.

THREE PRISONERS ADJUDGED INSANE

Removed From Western Penitentiary to Dixmont Hospital for Insane.

Three prisoners in this county who have been adjudged insane were removed from the Western penitentiary to the hospital for the insane at Dixmont yesterday by Deputy Sheriff W. B. McBride and Detective H. K. Sarver. The three were Samuel Robinson, Frank Smith and Henry Paul.

Robinson was serving a ten years' sentence for manslaughter, having shot and killed William C. Johnson, near Donora, in 1907. Smith was convicted of felonious breaking and entry and was serving a two years' sentence. Paul was serving an eight years' sentence for second degree murder, having been sent to the penitentiary in 1905. In a fight at Hazelkirk he killed David McCann.

Among the Charleroi people who yesterday attended the funeral of Mrs. Margaret Todd at Brownsville were Mr. and Mrs. W. H. Coles, Mr. and Mrs. G. L. West, J. C. and W. R. McKean, A. P. Stewart, John Jenkins, Burgess George Risbeck and Roland Brown.

School Closed On Account of Diphtheria

Disease Epidemic in Neighborhood of Cooper School

On account of an epidemic of diphtheria in the vicinity of the Cooper school in Fallowfield township, that school has been closed for two weeks. There has been no school there since Saturday, when the decision was made by the township directors. At the home of Paul Hagan there are two cases and one at the home of Elmer Fox.

MAY EFFECT COMPROMISE

Milkmen Willing to Meet On Equal Terms Councilmanic Committees

The Fallowfield Milkmen's Association will compromise matters with the Charleroi borough council, if they can, according to agreements reached at a meeting of the milkmen last evening. The terms upon which the milkmen will settle, however, were not made public, but they are considered reasonable by the dairymen as a whole. It is probable that a meeting will be held with the committee of council on next Monday, by the committee for the Milkmen's Association.

MONONGAHELA ROAD WILL BE EXTENDED

To Reach Rich and Undeveloped Coal Territory in Fayette and Greene.

It is practically assured that the Monongahela railroad, which now extends from Brownsville to Martin, in Fayette county, will be extended, in the direction of Wheeling, W. Va. The exact route seems to be in doubt as yet, but the whole southern end of Fayette county, as well as Greene county, is closely watching the trend of events.

During the past month a large corps of engineers has been stationed at Martin and New Geneva mapping out the country and running lines. It is said that the road will be extended to Point Marion and that another branch cross the river at New Geneva, and then penetra e the great coal lands of Greene county, and from there be carried to Wheeling. By these proposed routes, there would be a large amount of undeveloped coal territory reached, and the Monongahela Railroad would become a competitor of the B. and O., which in the southern part of Fayette has nearly everything its own way now.

ANNUAL HUNT WILL BE HELD

Elks Plan Affair For Monday And Tuesday, November Eighth and Ninth

Arrangements are being made for the annual Charleroi hunting contest of Charleroi Lodge No. 494, B. P. O. E., to be held on November 8 and 9. The hunt will last 48 hours or from Monday morning, November 8 at 12 o'clock, until Tuesday night, November 9 at 12 o'clock. As usual the affair will be followed in the course of a day or so after with a game supper, in which the losing side will appear as waiters, or in some other role, where there is work to be done for the benefit of the winning side.

The captains of the sides have been chosen. Thomas Barger is to lead the destinies of one and Councilman H. S. Piersol the other. A set of rules to govern the affair has been formulated, being practically the same as on previous occasions. A certain number of points is provided for each piece of game killed.

The names of hunters enrolling for the affair must be in before 10 o'clock p. m. on Saturday, November 6. However, it is requested that all who wish to participate in the hunt have their names in early.

BASEBALL PLAYER ATTEMPTS SUICIDE

Takes Chloroform, It is Said, When He Has Domestic Troubles

Henry Wilson, last season the popular first baseman of the Belle Vernon baseball club of the Valley league, is suffering from the effects of poison which he is said to have taken on Monday night in an attempt to commit suicide. He will recover, but had it not been for the timely arrival of a physician, it is stated he would have succumbed. Wilson, it is understood, had some domestic troubles, and on Monday night, in order to carry out a threat that he had previously made, took chloroform. Whether he took enough to have killed him, or not, is a question, but a physician was hastily called to the scene, took prompt measure to avert death, and succeeded in pumping the most of the poison from the man's stomach. Wilson lives in Fayette City, and it was at his home that he made the attempt at suicide. He had been to a drug store and had secured different kinds of poison shortly before taking the chloroform.

EXPLOSION VICTIM DIES FROM BURNS

Oliver Summerville Succumbs to Injuries Received at Centerville

George Summerville, 65 years old of Centerville, died yesterday at his home from the effects of injuries received in the gas explosion of the pumping plant of the Greensboro Gas company at Centerville on last Tuesday night. Funeral services will be held on Thursday morning at 9 o'clock at the late home, and later services will be held at Monongahela where the interment will be made. The deceased is survied by one daughter, Mrs. C. L Kenney, whose husband was also badly injured in the explosion, and one son, Walter Summerville. Mr. Summerville was well known in this county.

A pleasant surprise party was held in honor of Mr. and Mrs. Allen Gracey at their home on Fallowfield avenue Monday evening. There was about 40 present. The evening was spent in games and music. At a late hour lunch was served.

Miss Roberta Trew spent Saturday in Pittsburg and Sunday in Donora. Miss Helen Baker accompanied her.

Two houses are in course of construction on Crest avenue.

A MISTAKE; NO PHANTOMS

Registration in Charleroi Shows There Are Over 1,500 Qualified Voters

The registration of voters in this county, which has just been finished shows there are 29,033 persons qualified to vote in the county at the November election. Charleroi has 1,500 legally qualified voters, this being in number next to Washington, which has 4,003 voters enrolled. Monongahela, the only place in the county which is subject to the provisions of the personal registation law, returns 817.

The registration last year was very heavy, the total number in round numbers being 30,000. It being a presidential year a special effort was made by party workers to have voters quality. The falling off in the registration this year is due to general apathy, there being less interest manifested by voters.

Head officials of the main line, Pennsylvania railroad, were out on the Monongahela division today on an inspection tour. The special train went through here at 9:12 o'clock.

MERCHANTS GOING TO DONORA TONIGHT

Will Visit Neighbor Town to See Sights at Big Plants

This evening the members of the Charleroi Merchants Association and their friends will visit the big blast furnace and steel mill at Donora, where preparations have been made for their reception. The company will leave on the 8:18 train and return on the "bummer."

President J. H. Bowers of the Merchants Association will have transportation for all who have signed the list and contributed for the trip. All are requested to meet at the station in time for the train and indications point to a most enjoyable as well as instructive outing.

WILL HOLD UP IMPROVEMENTS

Property Holders Will Not Sign Release of Damages

Through the fact that releases of damages will have to be signed by property holders along the Monongahela-Donora road, which is to be bricked by the county, it is feared that the improvements will be held up for some time to come. At present it is understood that there is being no efforts made to secure the releases of damages, and there is some question as to whether all property holders along the road will sign a release. It is said that the coal companies having holdings will agree to wave all clams of damages but the smaller property owners will not grant waivers.

ARRANGING FOR A BENEFIT DANCE

Moose of Valley will Hold Affair for the Hospital.

Arrangements are being made for a big euchre and dance to be held in the near future, probably some place in Monessen, for the benefit of the Monessen-Charleroi hospital. The affair is being planned by the Loyal Order of Moose of the valley, and several lodges are interested, among them, being Charleroi, Monessen, Donora, Monongahela and Belle Vernon. If plans carry out as they are being arranged, the combined affair will be a big social event and a good sum will be realized for the hospital work.

William Riggs Assumes Charge --Peterson Goes Elsewhere

William Riggs took charge of Mongah mine near Monongahela as superintendent yesterday succeeding George W. Peterson, who is still in charge at Bunola. Mr. Riggs was formerly located at Dravosburg, having had charge of the Camden mine. Last week he moved to Monongahela, having been placed in charge of the Coal Bluff mine. This morning the Mongah mine was added to his list.

ASK FOR AN APPEAL

Counsel For Lenhart Arranging to Take Case to Highest Tribunal

W. L. Lenhart, convicted of conspiracy in connection with the wrecking of the Peoples Bank of California, expects to make a further fight to keep out of the penitentiary.

Yesterday in Pittsburg Attorney J. L. Freeman, one of the counsel for Lenhart, presented a petition to the Supreme Court to take an appeal from the decision of the Superior Court. It is not likely that any decision will be handed down on the petition before the first of next week. Attorney R. W. Irwin, the Washington counsel, prepared the petition asking to be allowed to appeal and Monday was at Pittsburg in consultation with Attorney Freeman and their client, W. L. Lenhart.

If the Supreme Court allows the appeal to be taken, the counsel for Lenhart will at once take the necessary steps to get the case before the Supreme Court. Should they do so it means that Mr. Lenhart will be assured of liberty for at least several more months. His counsel have not given up hope that finally a reversal of the lower court's judgement will be secured.

Following his consultation with his counsel yesterday in Pittsburg Mr. Lenhart left at once for New York City, where he is employed at present.

A week ago Monday the Superior Court, to which an appeal had been taken from the lower court, handed down an opinion affirming the judgment of the lower court and directing the defendant to appear and be committed to serve out his sentence as imposed by the lower court. Lenhart was sentenced to pay the costs, and fine of $500 and undergo imprisonment in the penitentiary for two years.

GAS LOW IN BROWNSVILLE

People There Pay a Flat Rate of 15 Cents, This Being From Recent Increase

While the rising tide of wrath in Charleroi over the arbitrary raise in the price of gas by the Greensboro Gas company has not reached a climax, this same wrath is being carefully nursed to keep it warm. Thus far action has been confined to investigation in order to learn what the company is doing elsewhere, how and under what terms it was granted its franchise in Charleroi, and how it has kept faith with the people in exchange for the valuable franchise it was given free of charge.

One of the results of this investigation thus far is that the Greensboro Gas company is guilty of gross discrimination wherever it has competition, and that where it has a monopoly it has hoisted the black flag. At Brownsville, where another company also has a franchise, the Greensboro company is supplying gas to domestic consumers for 15 cents net a thousand feet. When that is compared to the net rate of 25 cents a thousand feet charged consumers in Charleroi, the injustice of the last raise is all the more apparent, as it costs no more to supply gas in Charleroi than in Brownsville.

The rate in Brownsville, according to reliable information, is 20 cents a thousand feet cubic feet with 25 per cent. discount if paid by the 10th of each month, making a net rate of 15 a thousand to Brownsville consumers. In Charleroi the rate is now 27 cents a thousand cubic feet, with a discount of two cents a thousand if paid by the 10th of each month, making the net rate 25 cents a thousand. Before the raise the rate here was 25 cents a thousand with a discount of 10 per cent, making the net price 22 1-2 cents.

A number of citizens have expressed their willingness to join forces in order to see whether or not the company cannot be restrained from maintaining this rate, which is believed to be discriminating and extortionate. With gas at 10 cents in Monongahela and 15 cents in Brownsville, the people here are slightly under the impression that they are being held up.

SHEATZ WANTS TO KNOW OF THE MONEY

Sabbath Breaking not Irregular, According to His Opinion.

State Treasurer Sheatz yesterday sent a letter to the county treasurers throughout the State asking them to request the justices of the peace and alderman in their respective counties to turn in all fines for violation of the Sunday laws.

"The fines received by the department for Sabbath breaking seem to come from but a few counties of the Commonwealth" says the State Treasurer in his letter, "and it would be unfair for me to believe that Sabbath breaking is confined to but a few counties."

The Amendments.

All voters should remember that they will be called upon to pass approval or disapproval upon ten proposed amendments to the State Constitution at the election November 2. The object of these amendments is to abolish the February election and to provide that the general election shall be held in November of even numbered years, and that the municipal election shall be held in November of odd numbered years. Elsewhere in this issue is an abstract of the proposed ten amendments, together with instructions how to vote for or against them.

While each of the amendments revises a different section of the Constitution, all are to the same end, and with one exception necesasry to retain the harmony of the Constitutional provisions. The exception is the seventh amendment, which provides that election boards may be elected biennially, instead of annually, and that the Legislature may pass a law to require election boards to be appointed instead of elected. As this takes the control of elections in a measure out of the hands of the people, it is meeting with much opposition. Just why this proposition was made is not clear. Its defeat, however, will not invalidate the operation of the other amendments, and the probability is that it will be defeated. The other amendments are decidedly of public benefit as they reduce the number of elections and public expenses, and should by all means carry. With the exception of the seventh amendment, voters should mark a cross after the "yes" in all the others.

Public Obstruction.

Because some of the property holders along the public road between Monongahela and Donora refuse to sign releases for damges, the brick road that the county intended to build there will not be constructed. The contract was awarded, and work would probably have commenced ere this, but with damage suits in project against the county on account of grades the work will be held in abeyance.

Because of this lack of public spirit an important public improvement is held up. The county officials are not [illegible] suits and expense, and consequently the road will not be improved until the property owners along it see their way clear to sign releases. It would seem that any individual would gladly forego any slight inconvenience imposed by reason of grade for the greater benefits the brick road would confer. Property is surely more valuable on a boulevard than on an impassible mud road, to say nothing of the public convenience to that section. This obstructive policy on the part of a few property holders is decidedly shortsighted, to say the least.

Should Protest.

The sentiment of protest over the advance in the price of gas that has been aroused should not be permitted to lapse. It is more than likely that some means of redress can be found, and organized and systematic effort toward that end should be instituted. The people here should not hold up their hands and be robbed without a protest.

With every evidence at hand to show that a company holding a franchise of a public utility is guilty of gross discrimination and extortion, there should be some legal method of redress in the face of all the late court decisions and legislation in the restraint of trust, and monopolies. If there are technicalities in the statutes which protect these monopolies and give them a free hand in their footpad methods, it is worth some trouble and expense to find them out in order that they may be corrected. Washington county has three Assemblymen and in all probability will have a State Senator, and with this force to start with we ought to be able to do something in the way of protecting the people from the clutches of the monopolies. By all means take concerted action.

SEVEN JAILED AS RESULT OF MURDER

Newton Phillips, colored, Mr. and Mrs. Mike Hermann, Hungarians, Mike Teedra, and three other Hungarians are under arrest awaiting the result of the coroner inquest this afternoon into the death of Calvin House, who was killed near his home in Rices Landing sometime between 11 o'clock Monday night and 4 o'clock Tueday morning. The man's body was found by the first named of those under arrest.

Evidence went to show that House had been brutally beaten; his head was terribly crushed and his body showed the effects of blows of some blunt instrument. The pockets of the clothing were turned inside out, making it seem as though robbery was the motive. The coroner's jury is taking testimony in the case this afternoon, and may hold some of those at present under arrest.

MOULIN ROGUE GIRLS HERE FOR TWO NIGHTS

Fresh, bright and breezy, a sweet vision of beauty, such are the reports of the press wherever the "Moulin Rouge Girls Big Burlesque" has appeared. The company numbers 25 people in which pretty girls predominate with a few famous funny fellows to keep the pot a boiling. When the company appears at the Coyle Theatre for two nights, Friday and Saturday, October 22 and 23, everything will be as bright and new as money can make it, beautiful costumes, spicy, enticing dances, the latest and best of the season's song hits, two new up-to-date burlettas, the first entitled "The Moulin Rouge Girls Ball" is one big riot of fun and hilarity.

The closer is called "Paris After Dark" in which one of the biggest sensations of the season is introduced called "Shadows." This is the star feature of the show and must be seen to be appreciated. This is but one of the many novelties that will be shown along with a number of high class vaudeville acts.

They Didn't Have to Change.

During the years in which our pure food laws have been put into effect there has been a great hurrying and scurrying on the part of the food manufacturers to change their methods to make them conform to the law.

The Quaker Oats Company is a conspicuous exception. It was admitted that Quaker Oats was as pure and clean as possible and that it was an ideal food.

It is so cheap that any one can afford it and so nourishing that everyone needs it. The result of last year's experiments at Yale and other points where food values were tested is that Quaker Oats has been adopted by many persons as their food on which they rely for adding vigor and endurance of muscle and brain.

The Quaker Oats Company meets all demands in the way it packs Quaker Oats; regular size packages and the large size family package; the latter, both with and without china. 18

FRIENDS FIGHT; THEN GO TO LAW

Now are Willing to Settle Quarrels and Again be Friends, So 'tis Said.

It is said that Emil Goussy and George Miller, both of this place, until Saturday night the best of friends, are now after a period of four days' break in friendship, willing to again shake hands and make up. The trouble occurred, it is said, while they were endeavoring to be social. It was at Goussy's house, and Miller charged that he was ordered from the place in such terms as to cause him to bring a charge of assault. Goussy claims that Miller did not act properly and therefore brought a charge against him of disorderly conduct. A hearing was held at Justice of the Peace Wilson's last night, and continued until later. Today it was said that the affair would be settled.

WOODBURY writes about His Famous HAIR TONIC

Extract from an article written by the Master Dermatologist when Woodbury's combination Hair and Scalp Treatment was first successfully prepared for Home Use.

"The formula under which this Hair Tonic is made was tested and improved for over thirty-five years before a bottle was sold through the stores."

"For over thirty-five years this Tonic has been used in the enormous practice of John H. Woodbury's Dermatological Institute."

"Millions of cases were treated, and after their cure the patients continued the use of this Tonic as a delightful refreshment to the scalp and to keep the hair soft, rich and glossy."

If you don't see Woodbury's face on the label it's an imitation.

"This necessarily meant repeated calls at the Woodbury Institute, often at the inconvenience of patients living at a distance."

"To supply this demand, and the growing call from those who had not been treated, for a Hair Tonic which was scientifically successful (not a mere commercial product) this Tonic has now been put on the market and can hereafter be had from all reputable dealers."

Now, right in your own home, you can use the preparations formerly supplied only to office patients of the Institute. No other preparations for the Hair and Scalp are backed up by the same unlimited experience. No others give such quick and such satisfactory results.

Woodbury's Hair Tonic saves the hair when all other preparations fail. It prevents dandruff; stops falling hair, and instantly relieves itching scalp. It restores the lustre to the hair; preserves it's natural color; increases its vitality and makes it beautiful and abundant.

Everyone Endorses Woodbury's

Hair Now Growing Nicely.

My hair stopped falling out just as soon as I used the Woodbury's Scalp Cream in conjunction with the Scalp Cleaner. It's action was just like magic. The thick greasy dandruff is all gone. My hair is growing nicely and taking on a new growth. Your Hair Tonic I use night and morning, and it is the nicest hair dressing I have ever used. Thanking you for the letters of advice, I remain,

Sincerely yours,
MRS. JOHN F. HOWSON,
498 Quincy Street, Brooklyn.

This Specialist Uses Woodbury's

After ten years of careful study, and close observation of all conditions of the hair and scalp, I find the Woodbury method of treatment most successful of all. It is based on the most correct scientific principles. In cases of scalp disease the Woodbury preparations go right to the root of the trouble, and their curative and stimulating properties are remarkable. Am now using them exclusively in my offices and the results obtained are most satisfactory.

Quick Results Pleased Him.

The dandruff and itching scalp were terrible and my hair was thinning out over the temples and at the back of my head at an alarming rate. Nothing seemed to help until I used the Woodbury remedies, but good results were then noticed from the start, and in a few days the dandruff was entirely gone and new hairs began to show. What pleased me most was that results were so quick. The Woodbury Hair and Scalp Remedies certainly make the hair grow.

Yours very truly,

NAPOLEON'S FAREWELL.

The Most Dramatic Scene In the History of Fontainebleau.

It was at Fontainebleau that Napoleon received the pope in 1804. It was at Fontainebleau that he imprisoned the pope—the apartment which served as his prison is still shown—in 1812 and 1813. Finally, for Nemesis would have it so, it was at Fontainebleau that Napoleon signed his abdication and said farewell to his army in 1814, coming down the horseshoe staircase at the head of Cour du Cheval Blanc and placing himself at the head of the guard as if for a review.

"For twenty years," he said, "I have been well content with you and you have always been with me on the path of glory. With your help and that of all the brave men who are still loyal I could have carried on the war for three years longer, but France would have suffered, and I did not wish that to happen.

"I might have died—that would have been easy—but I would not. I prefer to follow the path of honor and to write the history of our exploits.

"I cannot embrace you all, but I will embrace your general. Come, General Petit. Bring me the eagle! Dear eagle! May these kisses find their echo in every brave man's heart!

"Farewell, my children!"

That surely is the most pathetic as it is also the most dramatic scene in the whole history of Fontainebleau.—T. P.'s London Weekly.

OLD TIME ENGLISH.

Words as They Were Pronounced In Shakespeare's Day.

The innovation of pronouncing Shakespeare's words as they were probably pronounced in his own day was carried out at a fete arranged at University college, London. The experiment inspired this comment by the Manchester Guardian:

For "one touch of nature" Shakespeare probably said "own tooch of natter," and, very much like a modern Irishman, he would say, "A haste that wants discoorse of rayson." It would be "Loov's Labber's Lost" and the "Midsoommer Neecht's Drame." Scraps of "Hamlet" would sound thus:

"A haste that wants discoorse of rayson
Would haave moorned longer."
"Be they as pure [French u] as grass [grace]."
"A broken vooice and his whole fooonction shooting [suiting]
With forms to his consayt."
"To take arms against a say of troobles."

Our ancestors of even some 150 years ago said "Room" for Rome, "cheer" for chair, "obleeged" for obliged, "greet boul" (the "ou" as in "out") for "great bowl," and, further back, Milton would say "biling water."

VOTING ON AMENDMENTS MADE EASY

Much has been heard the past year or two about the proposed amendments to the Constitution of Pennsylvania, upon which the people will cast their vote one week from next Tuesday, or November 2. An editorial in this issue sets forth the general object of these proposed amendments in a short statement, but for the information and convenience of the voter a condensed digest of each one of the proposed amendedments is given below:

Proposed Amendments.

No 1.—Provides that where a vacancy in office occurs two months or more before the general election in November in offices in which vacancies may be filled by appointment of the Governor the vacancy shall be filled at the election. The provision now in force is that the vacancy shall have occurred three months or more before the election.

No. 2—Fixes the term of the State Treasurer and of the Auditor General at four years each, instead of three and two years respectively, as at present; but provides that the State Treasurer and the Auditor General elected in 1909 shall serve terms of three years

No. 3—Provides that the term of office of justice of the peace and of alderman shall be six years, instead of five years as at present.

No 4—Applies only to Philadephia, and fixes the term of office of magistrates at six years. At present the term is five years.

No. 5.—Provides that the general election shall be held biennially, in each even numbered year, on the Tuesday next following the first Monday of November, instead of annually as at present.

No. 6—Abolishes the February election, and provides that the municipal election shall be held biennially in the odd numbered years, on the Tuesday following the first Monday of November, instead of annually as at present.

No. 7—Provides that election boards shall be elected biennially instead of annually, and further that the General Assembly may by law require said boards to be appointed, either generally or in cities only, instead of being elected.

No. 8.—Provides that State officers shall be elected on a general election day (November of even numbered years,) and the local officers shall be elected on a municipal election day (November of odd-numbered years.)

No. 9.—Fixes the term of office of all county officers as four years, instead of three years, as at present.

No. 10.—Provides that the terms of office of county commissioners and of county auditors shall be four years, instead of three years, as at present, classifying them as county officers coming under the ninth amendment.

How to Vote on Them.

Each amendment stands by itself; each embodies a distinct proposition, and each must be voted upon separately.

If you are in favor of abolishing spring elections, mark a cross opposite the word "yes" at the end of each amendment and the schedule

If you are opposed to the proposition, mark a cross opposite the word "no" wherever it occurs.

Voting a straight party ticket does not vote for or against the amendments.

Voting a split ticket does not vote for or against the amendments.

Voting on the amendments does not vote for the candidates.

CAUSES SICKNESS

Good Health Impossible with Disordered Stomach.

There is nothing that will create sickness or cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

We urge every one suffering from any stomach derangement, indigestion or dyspepsia, whether acute or chronic, to try Rexall Dyspepsia Tablets, with the distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine they are not satisfied with the results. THE CRUSH OF WORLDS.

What Would Happen if a Dead Sun Invaded Our Solar System.

It is possible, though it is not proved, that stars may sometimes approach one another and even "leap madly from their spheres." What would happen were an unknown star or a dead sun to invade our solar system?" asks a writer in the London Illustrated News, who answers his query in two ways. In the first place, the star might rush straight into the sun and by the heat of the collision reduce the sun and all its planets to a nebulous mass without form or structure. But it is more mathematically probable that just as comets approach, circle and recede from the sun, so the starry invader of our system would approach our system and recede from it, having altered it beyond recognition.

But what would be its effect upon our sun? The sun as we know it today is explosively elastic. Great tongues of flame which would consume a little planet like ours at a mouthful continually leap from it with speeds of several hundred miles a second. This enormous explosive force is restrained only by the greater force of the sun's gravity. But if an approaching star as great as the sun came within striking distance of it then along the line joining the two bodies, each would begin to pull the other, as today the moon pulls up the earth's oceans.

The mighty pull of the invading star would neutralize the sun's gravity in one direction, and the sun would, in a sense, explode. Out from our ancestral sun and from opposite sides of it would fly two great lengthening arms of matter, reaching far beyond the farthest planet. As the star passed, its moving mass would give a further twist to the sun and would pull the arms of matter into the shape of a great double spiral. Form and motion would thus be imparted to the nebula thus created, and from the solar system thus extinguished in catastrophe a new sun, with planets condensing from the lumps and inequalities in the projecting arms, would arise.
